COMPANY PROFILE

Our company is built on the quality of our workmanship and strong service ethics.

Established in 2010, Bayside Scaffolding has grown and built a reputation as respected specialists in scaffolding solutions servicing all of the Sydney, Canberra, and Wollongong regions of the state.

The company has been instrumental in shaping the scaffolding industry through its unique, innovative scaffolding and access solutions.

Bayside Scaffolding continuously strives to stay ahead of its competitors through the development and implementation of unique working and training models and a dedication to collaboration.

OUR VISION

To be recognised as the best-in-class service provider of scaffolding hire and labour solutions in Sydney, Australia.

OUR MISSION

Expanding our reputation for quality & safety scaffolding through innovative solutions to our clients, seamlessly and efficiently.

OUR COMPANY

At Bayside Scaffolding how we do business is just as important to our clients as what we do. We aim to build trust based, long term relationships with our clients whilst maintaining a high level of service. Our values define who we are as an organisation and we believe in acting with integrity with all our clients. Most importantly, Bayside Scaffolding guarantees to communicate openly & transparently, to deliver what we promise to our valued clients.

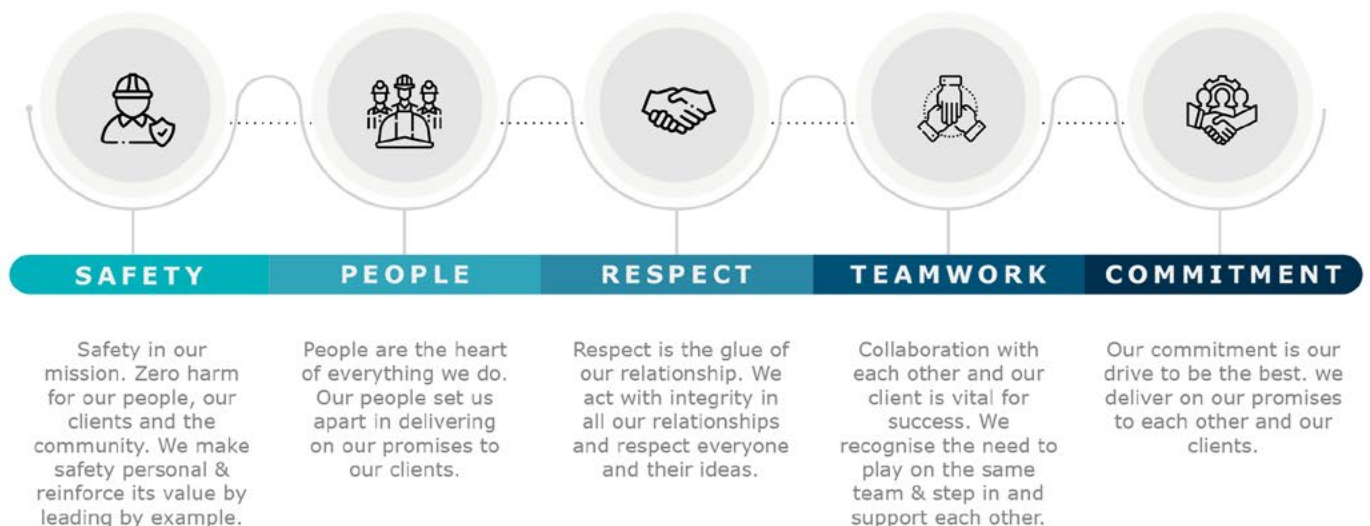

The size of the jobs we can do exceeds that of other scaffolding companies in the industry.

OUR VALUES

Bayside Scaffolding's actions are guided by our corporate vision and values of uncompromising honesty and integrity. As a scaffolding company, we are committed to sustainable and safety development through environmental protection, social responsibility and innovation.

Our guiding values include:

- Act with uncompromising honesty and integrity in everything we do.
- Satisfy our customers with innovative technology and superior quality, value and service.
- Respect our social and physical environment.
- Value and develop our employees' diverse talents, initiative and leadership.

SAFETY IS ALWAYS AT THE FOREFRONT.

It takes unconditional priority in the way we work and on every project. We back this with strictest policies and procedures and more importantly, it is embedded in our culture.

The way we work, day to day is by providing professional and ethical services to our clients. It is captured in our values and backed by our processes and systems, training and leadership. Our team values communication and transparency, working collaboratively both internally and with our clients

QUALITY MANAGEMENT

Quality is backed by formalised strategies, systems and procedures. We value training and experience in the delivery of quality workmanship. Our staff are skilled with multiple qualifications and disciplines including:

- Operational Health & Safety
- Risk Management
- Working to Australian Standards
- Scaffolding & High-Risk Work Licensing
- Project Management
- Innovative Designs & Planning

WORK, HEALTH AND GOVERNANCE

SERVICES

Bayside Scaffoldings core services are aluminium scaffolding sales, hire and labour, steel kwikstage hire and labour and engineering. Combined with our proven track record in the residential, Commercial and industrial sectors, we deliver leading and innovative solutions to our clients, seamlessly and efficiently. Bayside Scaffolding can design, deliver, install, project manage and hire scaffolding for our clients.

Our key strength is that we provide an integrated service that delivers the best outcome for scaffolding projects.

A BETTER RESULT

- A solution for all access and scaffolding requirements
- One company and one point of contact
- Highly experience project managers
- Safety is our highest priority
- Jobs run more smoothly and are easier to co-ordinate

PROJECT METHODOLOGY

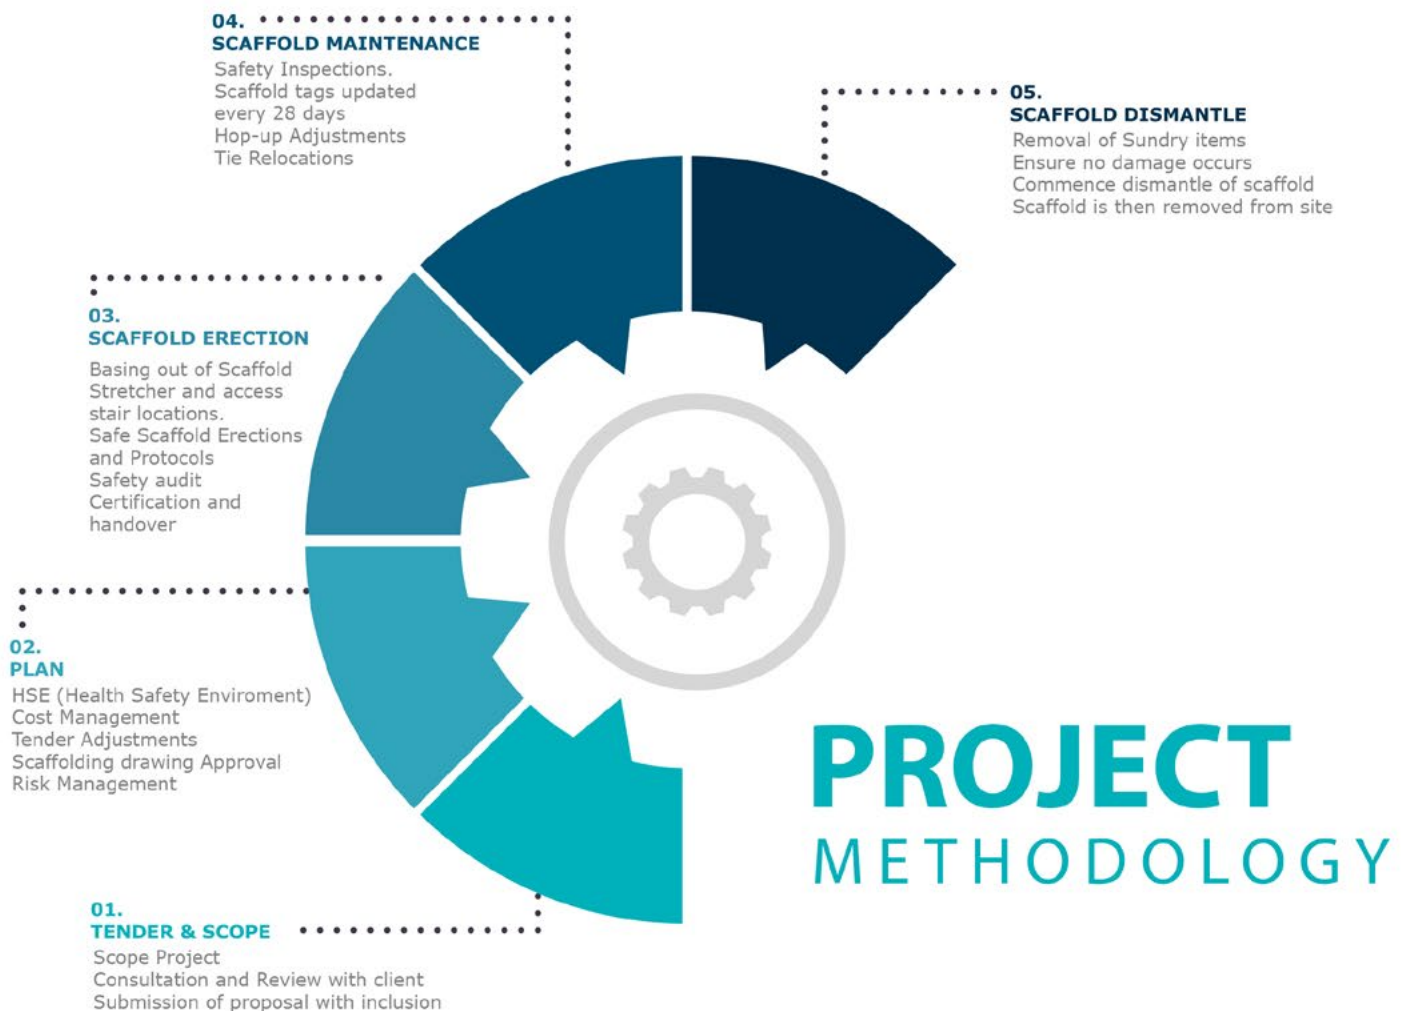

Bayside Scaffolding provides an integrated, reliable methodology that ensures consistency and accountability are delivered within a defined optimum project budget. The focus throughout the delivery process is on representing our clients' best interests. Bayside's extensive project management platform is used consistently across our projects and is represented by the 5-step methodology below.

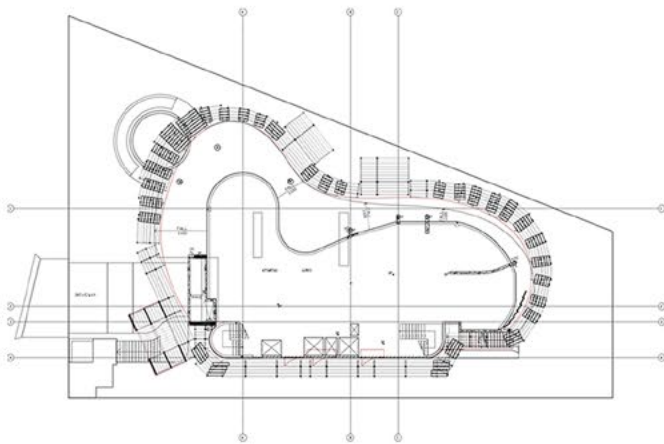

The methodology is designed to give every project manager the tools required to deliver and to ensure that only the appropriate resources are used based on the specifics of the project. Through our 5-step approach, we identify, assess and manage project risks.

A COMMITMENT TO OUR CLIENTS

We offer our clients a wealth of experience and resource to maximise their scaffolding results and help meet their strategic objectives.

We have built a reputation as one of the most innovative scaffolding companies and whilst we are proud of our success, we understand that only continued improvement and hard work keeps us at the forefront

Engineering

The oceanfront luxury apartments was consistent of two sets of loading platforms and one set of stretcher stair. The challenges that we faced during this project was coming up with a precise scaffold plan to fit the curves of the building.

We overcame the challenge of erecting the scaffold prior to the build. Hence the build was carried out precisely as the dimensions derived from the plans.

Project Information

by D.velop.R

The absolute pinnacle of oceanfront living in Cronulla. A three single level apartment with curved facades built to detailed perfection is backed by our custom designed scaffolding.

Oceanfront Luxury Apartments

Project Information

by Rockform Developments

The project consists of a stretcher stair, an alloy stair, 3 loading platforms, edge protection, and maintain access to the Basement Level. To achieve this, RSJ beams were spanned over the ramp in the North-Eastern corner of the building. Each loading bays have been provided to give access for transferring the material to every level.

Engineering

Our Partnering Engineering group provides innovative solutions for the most complex scaffolding challenges.

Our planning, design and engineering processes allow us to bridge the gap between turning your vision into reality. We also provide our clients with continuous project updates throughout every stage of the project from design to completion.

The team of highly-experienced engineers will turn your dream into reality by creating unmatched, exceptionally high-quality engineering designs. Properly understanding our clients requirements and expectations allows us to provide the best possible solutions to their project.

Wentworthville Residency

GLENMORE PARK

CIMA converges pared-back luxury and privacy across their grandeur residential spaces. Its 37 boutique apartments are spread across 7 townhouses that are crafted to harmoniously interwine form and function.
